

TAXI

Do you, your family, friends or colleagues use taxis?

Do you know:

- The difference between taxis and private hire vehicles?
- How to recognise licensed vehicles easily?
- Your rights and how to deal with concerns or problems you might experience?
- Do you believe that the existing law could be improved through reform?
- Should taxi drivers require a specific licence to drive 'taxis'?
- Should taxis require a specific taxi vehicle licence?
- Should taxi fares be set?
- Should the licensing authority have any power to limit the number of licences?

The Institute of Licensing is conducting a substantial nationwide survey to find out how the existing law is working for different users including the public, drivers, operators and regulators. We need and appreciate your views to assist in this.

Why?

- The existing taxi laws date back to 1847.
- Lack of understanding of the difference between types of licensed vehicles puts passengers at risk of rogue operators.
- Taxi drivers and passengers are vulnerable – could new standards give them better protection?
- Different interpretations result in varying requirements across the country.
